

APERTURE

Viviamo in una continua relazione tra luce e spazio. La luce ci permette di vedere e lo spazio ci dona libertà. La nostra missione è quella di interporre fra questi due elementi un oggetto in grado di rispettare la luce, permettendole di costruire lo spazio e, al contempo, di rispettare lo spazio, lasciando inalterata la sua volontà di raccontarsi.

We live in a continuous relationship between light and space. Light allows us to see and space gives us freedom. Our mission is to place between these two elements an object able to respect the light, creating space and at the same time to respect that space, leaving its story unchanged.

A P E R T U R E

Dividere senza separare

Una porta rappresenta al tempo stesso chiusura e apertura, riservatezza e unione. FOA si pone l'obiettivo di mettere in relazione gli ambienti senza alterare il senso di spazio, creando al contempo interconnessioni e suddivisioni, sfumando i confini senza soluzione di continuità. Le infinite possibilità di composizione estetica, le caratteristiche dei materiali impiegati, unitamente alla componentistica tecnica, rendono ogni nostro prodotto adatto a tutti i contesti, i gusti e le esigenze. Dal 1974 proponiamo porte e sistemi divisorii pensati per arredare con stile e raffinatezza gli spazi abitativi e lavorativi con l'intento di renderli sempre unici, armoniosi e confortevoli per chi li vive, dividendo senza separare.

DIVIDE WITHOUT SEPARATING

A door represents both closedness and openness, privacy and togetherness. FOA reimagines rooms without altering the sense of space, creating interconnections and subdivisions while seamlessly blurring boundaries. The endless possibilities of aesthetic composition and the quality of raw materials, combined with high-end technical components make each of our products suitable for any context, taste, or need. Since 1974 we have been offering interior doors and partitions designed to furnish living and working spaces with style and elegance. We craft these spaces with the intention of making them unique, harmonious, and comfortable for those who live in them: dividing without separating.

VETRO E LEGNO

L'eleganza e la luminosità del vetro, il calore e la naturalità del legno. Le collezioni FOA esaltano le proprietà di questi materiali ecosostenibili e circolari per eccellenza, combinando trasparenze e colorazioni, per creare soluzioni sempre differenti che donano carattere agli spazi. I nostri vetri sono stratificati di sicurezza secondo le norme UNI-EN 12543. Il legno impiegato nella nostra produzione proviene esclusivamente da impianti boschivi strettamente controllati e certificati.

GLASS AND WOOD

The elegance and brightness of glass, the warmth and naturalness of wood. FOA collections highlight the properties of these eco-sustainable and renewable materials par excellence - combining transparency and color - to create different solutions that always give style and character to spaces. Our glass is safety laminated according to UNI-EN 12543 standards. The wood used in our production comes exclusively from strictly regulated and certified forests.

V&L

Materiali: il nostro vero fiore all'occhiello

Vetro e legno sono i protagonisti di un design in continua evoluzione per soddisfare le esigenze del vivere quotidiano. Un'accurata selezione di materie prime, trasformate in elementi di stile con tecniche di lavorazione all'avanguardia, consente la realizzazione di porte e pareti scorrevoli personalizzabili in ogni dettaglio.

MATERIALS: OUR FEATHER IN THE CAP

Glass and wood are the protagonists of a design that is constantly evolving to meet the needs of contemporary living. A careful selection of premium materials transformed into stylish elements with state-of-the-art processing techniques enables the creation of doors and sliding partitions that can be tailored in every detail.

 **FOA[®]PORTE**

Tre collezioni, infinite possibilità

Tre stili differenti, pensati per adattarsi ad ogni situazione con la massima flessibilità. Le nostre collezioni sono state concepite in modo da essere declinabili in tutte le tipologie di apertura e perfettamente integrabili all'interno del vostro ambiente, rispettando sempre l'identità del contesto stilistico.

THREE COLLECTIONS, ENDLESS POSSIBILITIES Three distinct styles conceived to adapt to any situation with the utmost flexibility. Our collections are designed to be applied to all types of openings and to be flawlessly integrated within your environment, pairing perfectly with every style.

Soluzioni e partizioni a progetto ideate insieme a voi

Realizziamo strutture a progetto configurabili e personalizzabili in ogni minimo dettaglio, disegnate per aumentare la vivibilità ed il comfort degli spazi in cui andranno a collocarsi e incontrare lo stile di chi le vivrà nel quotidiano. La libertà creativa si esprime per dar forma a soluzioni divisorie “cucite su misura” che rispondono ai più alti canoni di tecnica ed estetica.

CUSTOM SOLUTIONS AND PARTITIONS DESIGNED TOGETHER WITH YOU

We manufacture made-to-order structures that can be configured and customized in every way, enabling us to increase the livability and comfort of your spaces and meet the stylistic tastes of those who will use them everyday. The creative freedom we offer paves the way for tailor-made partition solutions that meet the highest standards of technique and aesthetics.

Decori esclusivi in “Vetro Liquido”

Tratti tridimensionali sulla superficie del vetro offrono una nuova esperienza visiva e tattile. Una tecnica decorativa proprietaria ed innovativa che dona matericità al vetro, capace di mettere in risalto la luce o generare un effetto schermante. I decori in “Vetro Liquido” sono disponibili in versione trasparente o nera coprente.

EXCLUSIVE "VETRO LIQUIDO" DECORATIONS Three-dimensional designs on the surface of the glass offer a new visual and tactile experience. An exclusive and innovative decorative technique capable of enhancing the glass itself, it can both accentuate and dim the light that shines through it. “Vetro Liquido” designs are available in either clear transparent or opaque black colors.

Oltre le porte

La versatilità della collezione Factory trova massima espressione nella varietà delle possibili applicazioni, superando il concetto di semplice apertura. Lo spazio viene plasmato per creare vere e proprie stanze, spazi di lavoro, cabine armadio o, semplicemente, elementi decorativi capaci di generare diverse atmosfere in un unico ambiente.

BEYOND DOORS

The versatility of the Factory collection is found in the variety of possible applications, going beyond the simple concept of opening. Space is then shaped to create actual rooms, workspaces, walk-in closets or simply decorative elements capable of generating different atmospheres into a single room.

Essenze naturali che esaltano le venature del legno

L'essenza è la natura immutabile delle cose, così come l'essenza di un legno ne costituisce assoluta unicità. Da qui nasce l'esigenza di valorizzare le peculiarità di questo materiale nobile, realizzando una gamma di essenze selezionate per esaltarne la trama. La gamma delle finiture è composta da una vasta selezione di tinte, ma anche di laccature, disponibili sia nella versione poro aperto che poro chiuso.

NATURAL ESSENCES THAT ENHANCE THE GRAINS OF WOOD

Essence is the unchanging nature of things, just as the essence of wood is what makes each piece unique. This belief underscores the need to magnify the peculiarities of this trusted material by offering a range of shades to highlight its texture. The range of finishes consists of a wide selection of stains and lacquers, available in both open-pore and closed-pore versions.
